OBJECTIVE

First-year Petroleum Engineering student at Colorado School of Mines on a full national scholarship, seeking a Summer 2027 internship or field-based role in oil and gas operations. Trilingual (Arabic, Balochi, English), SPE student member, with first-hand exposure to drilling-rig operations.

EDUCATION

Colorado School of Mines, Golden, CO – B.S. Petroleum Engineering August 2026 – May 2030

- Full government scholarship, Oman – top 1% nationally, awarded to 600 of 50,000 students for academic excellence

High School Diploma, Oman – graduated July 2025

- Valedictorian – cumulative GPA 3.9/4.0 (final-year GPA 4.0)

PROGRAMS & ENRICHMENT

University of Pennsylvania – Pre-College Program October 2025 – April 2026

- Selected participant in a pre-college English program: academic writing, research methodology, debate and structured discussion

LEADERSHIP & ACTIVITIES

Member, Society of Petroleum Engineers (SPE), Mines Student Chapter August 2026 – Present

- Attends chapter meetings and industry speaker events to build knowledge of the sector and its employers

Vice President, English Club – High School

- Organized and led student trips to universities, extending members' exposure beyond the classroom
- Delivered presentations on artificial intelligence to audiences outside the school
- Coached members in English communication and public speaking

FIELD OBSERVATION

FOS Oil Rig Sites, Oman – Site Visits June 2025 – August 2025

- Observed live drilling and rig operations during informal site visits alongside a practising petroleum engineer
- Direct exposure to rig crews, equipment and site safety practice that confirmed petroleum engineering as a field of study

SKILLS

Languages: Arabic, Balochi, English – fluent in all three

Software: Microsoft Excel, Word, OneNote; AI tools for data analysis and document workflows
